

Exodus Pre-purchase Timber Pest Inspections

Detailed Inspection Report available within 2 business days.

If you are interested in purchasing a property, we highly recommend you consider an Exodus Timber Pest Inspection. Different from a standard Building Inspection, which does not consider pest infestation, an Exodus inspection concentrates 100% on termite activity.

Following the same guidelines as stated above, our Exodus qualified technicians will thoroughly inspect the property, deliver you a detailed Inspection Report within two business days (email or hard copy), and answer any questions you may have regarding present and future treatment (if required).

Our company is fully insured and adheres strictly to quality assurance and licensing regulations. If required, Exodus can also help you choose a suitably qualified building inspector.

The cost of an Exodus Pre-purchase Timber Pest Inspection is dependent on the size and scale of the building/property involved. You are welcome to accompany our technicians when they perform the inspection. Call us on 1300 396 387 for more information.
